### DAHLIAS OF MERIT

---

---

In presenting this price list, it is with the belief that every Dahlia listed herein, has true merit, regardless of price, place or time of its origin.

Special attention has been given to collecting only such varieties as excel in form, size, color, length and strength of stem, habit of growth and free and continuous blooming.

## READ THIS BEFORE ORDERING

Types of Dahlias are abbreviated as follows:-  
C-Cactus; COL-Collarette; D-Decorative; H. S.-Hybrid Show; P. D. - Peony Decorative; P. F.-Peony Flowered; P. P - Pompom; S - Show.

Order early or some varieties may be sold out. Orders will be booked and stock reserved, in strict rotation as received, although shipments will not be made until planting time in the spring, which begins about April 15th and ends about June 1st.

(State what date you want yours sent.)

Allowing substitution saves time on late orders, when planting time is near. If any variety is substituted, another of equal or greater value will be sent and as similar in all respects as is possible. You will be pleased with our selection, in case we do substitute, which we rarely do unless requested.

Stock sent out is strong, divided field-grown roots, showing a sprout or "eye", guaranteed true to name and to arrive in good growing condition.

No liability is acknowledged above the purchase price.

If any stock should be labeled wrong, it will be replaced the following spring.

Any other complaint must be filed immediately upon receipt of the stock.

TERMS:- Cash with order or in advance of shipment. Orders are sent postpaid into first four postal zones.

For orders amounting to less than \$1.00 add \$ .10 to order for packing and postage. Stamps will be accepted on such orders.

For all orders, accompanied by payment in full, received before April 15th, we will add 15% of order, in bulbs of OUR OWN selection. This is to encourage early orders while stock is complete.

The soil, climate and altitude in "The Land of the Sky" produce dahlia bulbs of high quality, which should give good results anywhere, provided they receive proper care in planting and cultivation.

Stock of many choice varieties is too limited to list. Inquire for what you want. We may have it.

E. O. Johnson, Mgr.
